PROFESSIONAL SUMMARY

A computer science student with a strong foundation in programming and problem-solving, complemented by hands-on experience in projects that emphasize precision and practical application. Known for a meticulous approach and commitment to accuracy, Excel in creating structured solutions and handling complex technical challenges. Seeking opportunities that will further develop skills in programming and software development, using those opportunities to contribute to impactful, real-world projects in a professional environment.

EDUCATION

Queens College, City University of New York   **Flushing, NY**

Bachelor of Arts, Computer Science   **May 2026**

SKILLS

Technical: Full-Stack Web Development, Front-End Web Development, HTML5, CSS 3, Flexbox, Grid, Bootstrap 4 and 5, JavaScript ES6, DOM Manipulation, jQuery, Git BASH, Back-End Web Development, Node.js, npm, Express.js, Rest.js, Embedded JavaScript, Representational State Transfer, Application Programming Interfaces, Databases, SQL, PostgreSQL, Authentication, Web Design, C++, Java, Python, Assembly Language, Data Structures, Discrete Structures, Design & Analysis Algorithms, Adobe Photoshop, Microsoft Office Suite, G Suite, Canva, IOS and Android, Windows and MacOS, Zoom, FedEx and DHL shipping, Printing, Scanning, Fax, Receiving and answering phone calls, Emailing

Other: Creativity, Time management, Communication, Teamwork, and Adaptability

WORK EXPERIENCE

Best Copy and Shipping   **New York City, NY**

Salesman Intern   **September 2024 - Present**

- Engaged directly with over 100+ clients to promote and clarify a diverse array of printing services, including custom merchandise such as business cards, posters, and T-shirts while ensuring customer satisfaction.
- Supported sales for specialized printing and scanning services, such as high-resolution blueprint outputs, document scanning, and personalized items, building a strong understanding of client needs in professional printing and reproduction.
- Coordinated with customers on complex orders, including large-format posters, booklet printing, and VHS-to-DVD conversions, ensuring precision and timely delivery to meet specific customer specifications.
- Assisted with the operational aspects of the FedEx and DHL shipping center, including packaging and document handling, enhancing service efficiency and reliability for clients.
- Developed an understanding of digital photo and document management, including digital photo transfers, legal document scanning, and storage solutions, encouraging environmentally friendly practices and digital backups for clients.
- Streamlined order processing procedures for scanning services which improved turnaround times by reducing workflow bottlenecks; implemented tracking systems resulting in more organized management of at least 30 active projects per week.

PROJECTS

Nested Loops and HTML Table Generator   **July 2024 – September 2024**

- Developed a program to dynamically generate HTML tables using nested loops in Java.
- Enabled customization of table dimensions and content formatting based on user input.
- Demonstrated an understanding of web development principles and automation of repetitive tasks.

Student Grades Management System   **June 2024 – July 2024**

- Created a Java-based application using HashMap to store, retrieve, and update student grades efficiently.
- Implemented search functionality for quick access to individual records, enhancing user experience.
- Designed the system to handle real-time grade updates, ensuring data integrity and consistency.

Fibonacci Sequence Generator   **December 2023 – February 2024**

- Developed a program to compute Fibonacci sequences using recursion in Java.
- Optimized the recursive algorithm to handle larger inputs efficiently and reduce stack overflow risks.
- Illustrated strong problem-solving skills by implementing base cases and recursive logic effectively.

LAGUAGES

- **English:**   **Fully Professional**
- **Bengali:**   **Professional**

CERTIFICATIONS

- **Certification of Completion 100 Days of Code: The Complete Python Pro Bootcamp - *(Udemy)***   **April 2025**
- **Accelerating Deep Learning with GPUs - *(Cognitive Class)***   **February 2025**
- **Digital Skills: Artificial Intelligence Certificate - *(FutureLearn)***   **February 2025**
- **HP LIFE AI for Beginners Certificate - *(HP LIFE)***   **February 2025**
